KPAD

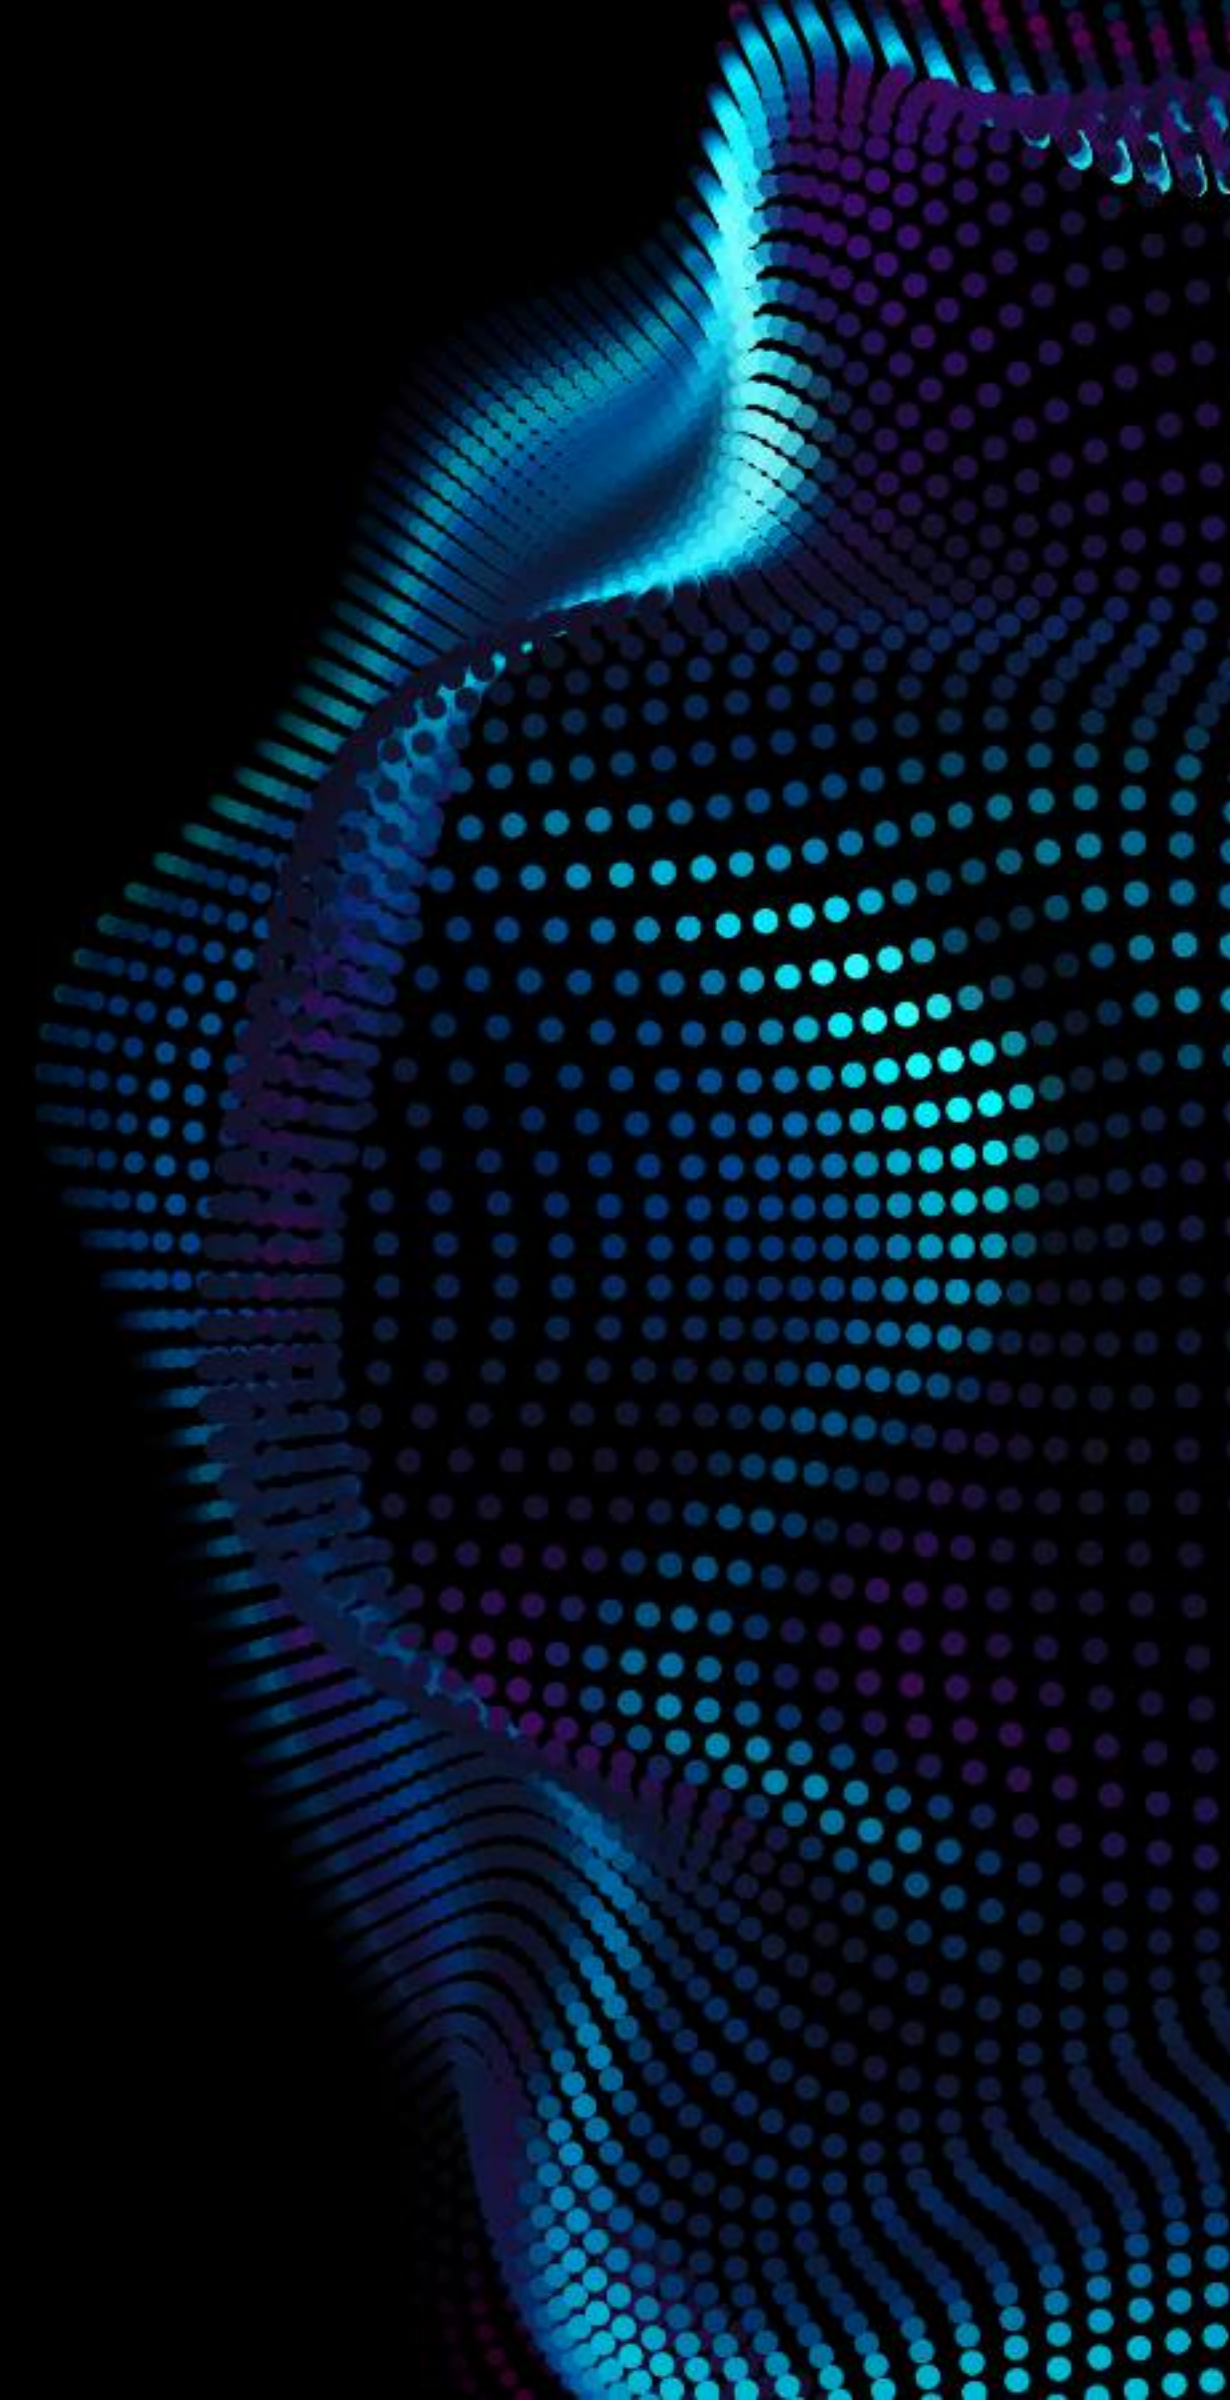

OFFICIAL WHITEPAPER

WHITEPAPER

Going through this white paper you will get to know

- What is KlaytnPad?
- The purpose of launching KlaytnPad and its future goals.
- KlaytnPad Tier System
- Tier Allocation and Participation rules
- Everything you need to know about \$KPAD
- Tokenomics
- Our Team
- KlaytnPad Socials

So, let's get started!

WHAT IS KLAYTNPAD?

KlaytnPad is a fully automated launchpad for all Klaytn Network projects. At KlaytnPad you will get a chance to be a part of unique and different types of projects like DeFi, blockchain gaming, NFTs and all those projects which utilize blockchain for all of us.

KlaytnPad will help speeding up the launch of those new and amazing projects by raising the amount for them. We strongly believe in quality projects so we try to bring forward the kind of projects that are potentially strong and are backed up by a good and experienced team. In this way, you guys will always get a chance to invest in one of the best projects and will never regret doing it.

PURPOSE AND FUTURE GOALS

The main purpose of the launchpad is to bring forward potentially strong projects on Klaytn network with experienced and devoted team working behind them. We at KlaytnPad will launch projects only on Klaytn network which is an open-source public blockchain for all who wish to build, work, or play in the metaverse.

For future, we have a lot of goals set that we are trying our best to achieve and we are confident enough that we can dominate as a launchpad in near future. The projects that are going to be launched here will be worth investing so; KlaytnPad is basically for all the people who are looking to invest in new and unique projects that hold great value in the market.

KLAYTNPAD TIER SYSTEM

We have launched 3 Tier systems. Each tier have its own allocation pools and max contribution limit (max contribution limit varies from project to project) and you must hold our native \$KPAD tokens to be eligible for each tier.

So, the 3 tiers are named as:

Tier 1
Diamond

\$500 worth of
\$KPAD tokens

Tier 1
Gold

\$300 worth of
\$KPAD tokens

Tier 1
Silver

\$100 worth of
\$KPAD tokens

NOTE: These are just the initial numbers and will be changed later when KlaytnPad will get launched.

TIER ALLOCATION AND PARTICIPATION RULES

Each tier has its own pool for allocations.

Tier 1 Diamond	Tier 1 Gold	Tier 1 Silver
50% of the total IDO allocation	30% of the total IDO allocation	20% of the total IDO allocation

- Participation is First come first serve (FCFS) First come first serve for each tier and the duration of contribution for each tier at KlaytnPad will be 12 hours.
- Investors will need to hold the \$KPAD tokens in the wallet to participate. There is no need to stake. \$KPAD LP will also NOT count and the tokens must be available in your wallet to be eligible.

\$KPAD

\$KPAD is the native token of KlaytnPad built on the Klaytn Network. It will allow you to participate in presale activities. You'll participate in initial offerings and will be able to purchase different projects' tokens at discounted or initial launching price. You'll need \$KPAD tokens in your web3 wallet i.e (metamask) according to our three tiers system. Your allocation will depend on the amount of \$KPAD tokens you have according to our three tiers system

Once you hold \$KPAD tokens in your wallet, you will be able to participate in FCFS Rounds of IDO fundraising Project tokens event according to your eligible Tier.

TOKENOMICS

IDO Allocation	20,000,000 (20 Million)
Network	Klaytn Network
Ticker	\$KPAD
Ecosystem	7,500,000 (7.5 Million)
Team	5,000,000 (5 Million)
Marketing	5,000,000 (5 Million)
Liquidity	12,500,000 (12.5 Million)
Max Supply	50,000,000 (50 Million)
Tax	5% LP Tax

Also, a locking system is implemented due to which the users will be able to lock their \$KPAD tokens as well as their \$KPAD LPs.
